

# Atlas Industries Inc.

## Precision Machined Products

### Specializing in Crankshafts for Engines, Pumps & Compressors

Atlas Industries is a world leading manufacturer of precision machined products specializing in crankshafts for engines, pumps & compressors.

Since 1943, Atlas has provided experienced, proven manufacturing capabilities to original equipment manufacturers throughout the world.

#### Capabilities:

Atlas has diversified precision machining capabilities providing:

- ✓ 2,500+ Machine Tools
- ✓ Broaching
- ✓ Milling
- ✓ Drilling
- ✓ Tapping
- ✓ Fillet Rolling
- ✓ Turning - CNC & Conventional
- ✓ Cylindrical & Surface Grinding - CNC & Conventional
- ✓ Heat Treat Capabilities; Plasma Nitriding
- ✓ Purchased Material & Services from well established; Foundries, Forgers, Steel Mills, Heat Treaters & Component Suppliers

#### Markets Served:

Atlas manufactures products for world market leaders in:

- ✓ Agriculture
- ✓ Air Braking Systems
- ✓ Air Conditioning
- ✓ Air Compressors
- ✓ Automotive Engines
- ✓ Construction Industry
- ✓ Diesel Engines
- ✓ Fluid Pumps
- ✓ Gasoline Engines
- ✓ Marine Engines
- ✓ Metal-forming Machinery
- ✓ Oil & Gas Compressors
- ✓ Oilfield Pumps
- ✓ Refrigeration

#### Products Produced:

Atlas produces a wide range of products including:

- ✓ Balance Shafts
- ✓ Crankshafts
- ✓ Cylinder Heads
- ✓ Eccentric Crankshafts
- ✓ Eccentric Shafts
- ✓ Hubs
- ✓ Motor Shafts
- ✓ Pump Shafts
- ✓ Reciprocating Shafts
- ✓ Rotor Shafts
- ✓ Scroll Shafts
- ✓ Terminal Plates
- ✓ Water Jacketed Intakes & Exhaust Manifolds

#### Quality Control:

Atlas products are produced to the highest standards with:

- ✓ ISO9001:2008 Certification
- ✓ CMM Machines - Adcole
- ✓ Millipore Cleanliness Testing
- ✓ Layout Tables
- ✓ Optical Comparator
- ✓ Hardness Testing
- ✓ Magnetic Particle Crack Detection
- ✓ Micro Surface Finish
- ✓ Line Gages and In Process Gages

### History

In 1943, T.E. Clark and T.W. Clark co-founded Atlas Industries in Woodville, Ohio. Initially hiring five employees to machine crankshafts as well as other precision machined products to assist in the war efforts.

Atlas quickly built a reputation as a preferred source for crankshaft machining. In 1954, a new facility was constructed nearby in Gibsonburg. Continued growth, founded upon our dedication to quality, service and delivery necessitated the opening of our Fremont facility in 1971 and our Tiffin facility in 1986. Today we stand ready to serve your needs as the fourth generation of the Clark family provides vision and leadership to the organization.

### Value of Domestic Sourcing:

As a family owned USA based manufacturer Atlas provides:

- ✓ Reduced transit times & transportation costs
- ✓ Higher standard of quality control
- ✓ Ease of communication
- ✓ Reduced start-up times
- ✓ Just in Time Deliveries allowing for reduced inventory levels
- ✓ Improved responsiveness to customer needs
- ✓ Reduced overall risk & financial liability
- ✓ Ability to react/adjust to product demand
- ✓ Greater flexibility with packaging/shipping requirements
- ✓ Pride in using American Made products and labor

### Our Team

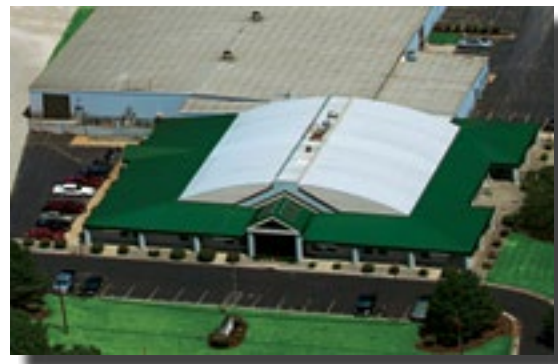

The foundation of our success relies upon the dedication of our team members. Experience, knowledge and the passion to succeed are the driving force behind the quality products we produce.

We seek to exceed your expectations with every opportunity and value the trust you place in us.
